Email: reachoutsravan@gmail.com

Phone: +1 (425) 772-6166

### Professional Summary:

Highly skilled and detail-oriented react full stack developer with 6+ years of experience in developing responsive, user-friendly web applications. Proficient in HTML, CSS, JavaScript, and related frameworks including React and Angular. Possessing a strong understanding of web design principles, usability, and accessibility, as well as experience with version control systems such as Git. Committed to staying up-to-date with the latest trends and technologies in the field, and dedicated to delivering high-quality work that meets and exceeds client expectations.

- Around 6+ years of experience in developing User Interface/Web Applications using **HTML, CSS, JavaScript, Angular, React, Bootstrap** with server-side framework as **Node Js, Express Js**
- Extensive knowledge in developing applications in a **single page (SPAs)** using various JavaScript frameworks like **Angular, React**
- Experience in working with **RESTFUL Web Services** and implemented **RESTFUL API's**
- Good understanding of **Document Object Model (DOM) and DOM Functions**
- Delivered engaging and visually compelling web designs with user-friendly UI that are cross-browser compatible and **mobile responsive**
- Integrated **HTTP** requests into web applications to retrieve and manipulate data from servers using technologies such as **Axios** and **Fetch**
- Experience of working **CSS Preprocessors** like **LESS and SASS** and testing tools **Jest, React Testing Library**
- Experience in developing **REST API's** using **Node Js, Express Js and MySQL**
- Experience in working software development tools used by agile teams – **JIRA, SNOW** and **DevOps**
- Responsible for checking Cross Browser Compatibility of different elements and tags hence worked on different browsers like Google Chrome, Firefox, Opera and Safari
- Believes in writing well-documented, well-commented, clear and hence maintainable code
- Developed and maintained responsive and user-friendly interfaces for web applications that interacted with **HTTP** requests
- Integrated Web Sockets into web applications to enable real-time communication between clients and servers using technologies such as **Socket.IO** and **Web Socket API**
- Experience in all phases of **Software Development Life Cycle (SDLC)** including Analysis, Design, Development, Documentation, Testing, Deployment, Version Control and production support
- Capable of performing in a fast paced, result driven atmosphere

### Technical Skills:

Programming Languages	React Js, Redux, Angular Js, TypeScript, Express Js, Node Js, JavaScript, jQuery
Web Technologies	HTML, XHTML, CSS, SASS, Bootstrap, XML, JSON
IDE	Visual Studio Code, Notepad++, Atom, Sublime
Operating System	Windows, Linux, Ubuntu, MacOS
Version Control	GIT, Bitbucket, DevOps (Repository)
Tools	JIRA, SNOW, DevOps

### Professional Certificate:

- Certificate of **React Js – Associate**  
**Credential ID: 52045 | Platform: Great Learning**

- Certificate of **Azure DevOps Fundamentals – Associate**  
**Credential ID:** 635b22f6-6f84-4099-8c5d-7d98ac30be72 | **Platform:** Udemy

## Professional Experience:

<b>Client</b> : Novartis	Mar 2023 – Present
<b>Role</b> : React FullStack Developer	

### Responsibilities:

- Responsible for developing UI templates using React, Angular, HTML5, CSS3, Bootstrap and jQuery
- Applied React with hooks and React-router to serve up a dynamic SPA and applied Redux to manage global state
- Used various Angular custom directives and developed reusable components and templates that can be reused at various places in the application, worked with ngrx for managing Angular Applications
- Created Typescript/JavaScript reusable components and services to consume REST API's using component based architecture provided by Angular and React
- Experience in working with the advanced JavaScript such as ECMAScript 6 (ES6)
- Implemented HTTP requests using RxJS Observable library to handle multiple values over time
- Frontend GUI development using browser friendly HTML, JavaScript, CSS, Ajax and jQuery
- Created global store with redux, redux-toolkit and managed state throughout the application
- Experienced in creating bundling complex applications using Webpack or packaging it using gulp
- Programmed interactive features: animations, text boxes, and navigation buttons, messaging systems, forum functions exclusively in JavaScript, HTML, CSS, GIT, and SASS. Designed and constructed CSS site using SASS
- Created REST API's using Node, Express and MySQL
- I had the responsibility to train 4 people the front-end basics and helped them develop further

**Environment:** React, Redux, Angular, TypeScript, JavaScript, jQuery, HTML, CSS, SASS, Express Js, Node Js, JSON

<b>Client</b> : Cognizant Technology Solutions	September 2021 – Mar 2023
<b>Role</b> : React FullStack Developer	

### Responsibilities:

- Developed rich prototypes and applications using HTML, CSS, React, Angular, JavaScript, JSON that follows W3C web standards and are browser compatible
- Developed Angular Js components such as controllers, services, filters and models
- Exposure to creating SPA using React Js by using the concept of virtual DOM
- Implemented HTTP requests using RxJS Observable library to handle multiple values over time
- Created JavaScript reusable components and global store to consume REST API's using component based architecture provided by React, Redux
- Created REST API's using Node, Express and MySQL
- Used chrome developer tools for debugging. Worked on DevOps CI/CD to push code, build and release
- Converted Veeva components to decoupled components with JavaScript from scratch
- Applied React with hooks and React-Router to serve up a dynamic single page application Implemented dynamic Graphical User Interface (GUI) by using HTML, CSS, SASS, and JavaScript
- Worked on REST/Web API's to create the services and tested on postman and used Angular JS \$HTTP services calls and bind the data in the table using ng-repeat attributes

- Programmed interactive features: animations, text boxes, navigation buttons, messaging systems, forum functions exclusively in JavaScript, HTML, CSS, GIT, and SASS. Designed and constructed CSS site using SASS
- Solved the needs of clients for Mobile, Web and User Interface design

**Environment:** React, Redux, Angular, TypeScript, JavaScript, jQuery, HTML, CSS, SASS, Express, Ngrx, Webpack, JSON, Node Js, Azure DevOps

**Client : Oi Digital Private Limited**

**January 2020 – September 2021**

**Role : Senior Frontend Developer**

**Responsibilities:**

- Developed websites using HTML, CSS, Bootstrap, JavaScript from scratch
- Applied React with hooks and React-router to serve up a dynamic SPA
- Designed and developed interactive product overview module using jQuery, HTML, CSS, Bootstrap
- Development of graphs, charts using JavaScript libraries
- Applied React with hooks and React-Router to serve up a dynamic single page application Implemented dynamic Graphical User Interface (GUI) by using HTML, CSS, SASS, and JavaScript
- Developing the server side using Express Js and frontend with React, Angular
- Created reusable templates and style sheets based on UI standards and guidelines. Performed functional tasks using specifications and wireframes
- Extensive interaction with the clients on requirement gathering and estimation on Sprint planning and user stories tracked in JIRA. Took lead to guide the team on implementing the frontend technologies collaborated with Java
- Proficient in building web user interface (UI) using HTML, React, Angular, CSS, JavaScript, DOM, jQuery and Ajax that follows W3C web standards and are browser compatible
- Developed websites using HTML, CSS, Bootstrap, JavaScript from scratch

**Environment:** HTML, CSS, JavaScript, jQuery, Bootstrap, React, Redux, SASS, Drupal (DX8), WordPress, Wix

**Client : IDEEO Tech Solutions**

**February 2017 – January 2020**

**Role : Frontend Web Developer**

**Responsibilities:**

- Involved in process of Software Development Life Cycle (SDLC) Agile model
- Developed websites using HTML, CSS, Bootstrap, JavaScript, React, Angular, Typescript, jQuery from scratch
- Exposure to creating SPA using React Js by using the concept of virtual DOM
- Designed and developed interactive product overview module using jQuery, HTML, CSS, Bootstrap
- Development of graphs, charts using JavaScript libraries
- Worked on Cross-Browsers compatibility and fixed the bugs for several browsers
- E-Learning automation module development from scratch using JavaScript, HTML and CSS
- Developed websites using HTML, CSS, Bootstrap, JavaScript from scratch
- Used local storage browser persistence to optimize user experience
- Designed and developed interactive product overview module using jQuery, HTML, CSS, Bootstrap

**Environment:** HTML, CSS, React, Angular, JavaScript, jQuery, TypeScript, JSON, Ajax, Bootstrap, WordPress
